

Gerontechnology in Dementia Care

Solution “market failure- and togetherness Israel and the Netherlands”

Dutch Israeli Mini-Symposium on AI and Dementia – December 22, 2021

Dr. Henk Herman Nap

People & Projects

- >43 (inter)nationale projects on digital care
- >40 Vilans colleagues working on digital care projects
- Work with >120 other organizations
- Iterative co-design, value based & datadriven care!

Give an impulse to knowledge on the implementation of technology in care and support!

AAL PROJECT HAPPY WALKER (2012 - 2015)

GO-NO GO

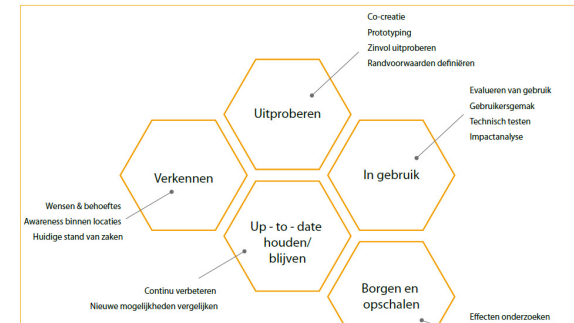

ZONMW PROJECT HAPPY WALKER OUTSTANDING (2016)

Our vision on digital care

- End-users as a crucial success factor in design and implementation
- Technology should add value to the lives of people
- Care processes should be supported by integrated digital data & precision health

MENSGERICHT ONTWERPPROCES IN HET HAPPY WALKER PROJECT | van idee tot ontwerp

AAL PROJECT HAPPY WALKER (2012 - 2015)

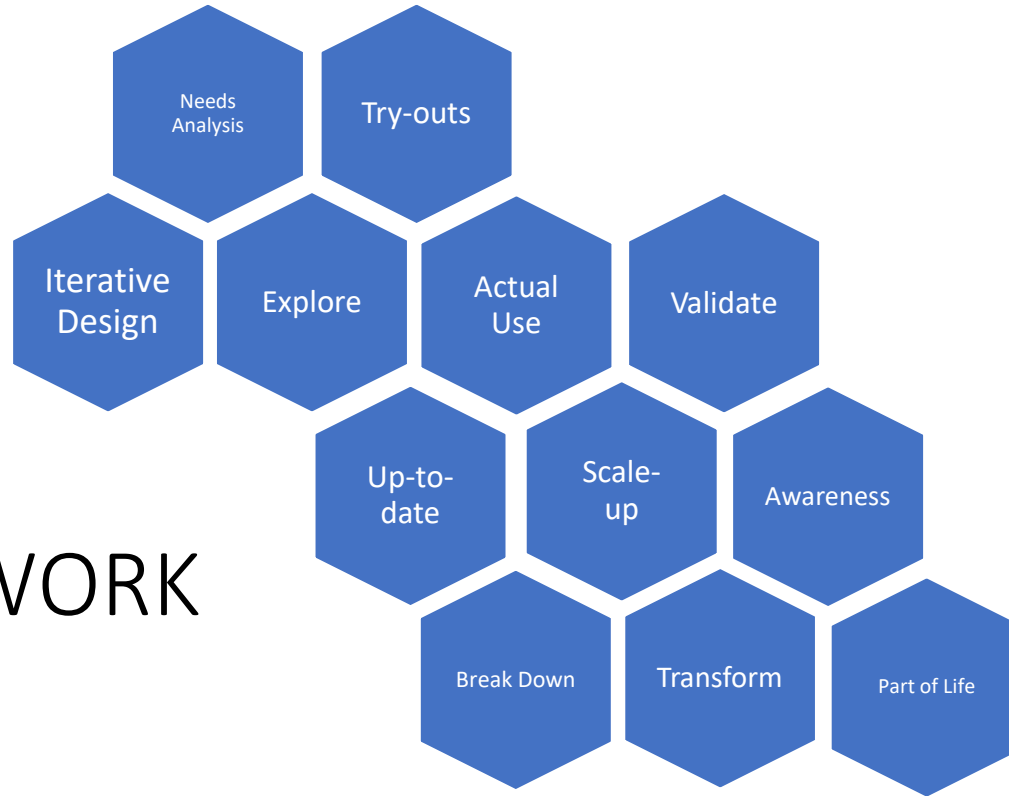

60-NO GO

ZONMW PROJECT HAPPY WALKER OUTSTANDING (2016)

THE WAY WE WORK

100% predictability = 0% innovation

Value delivery > Plan fulfilment

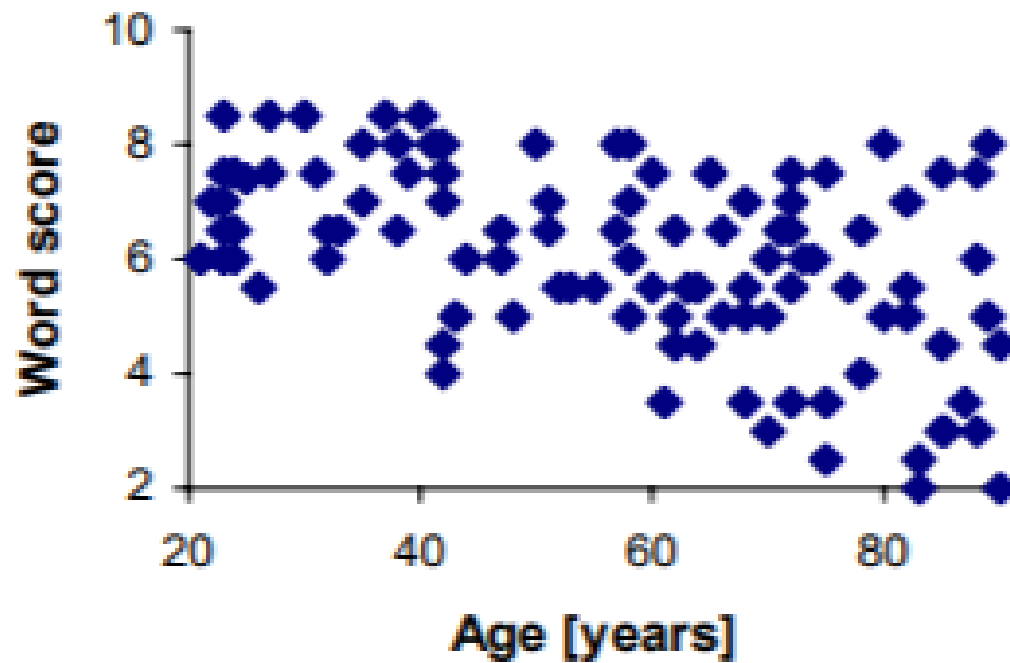

Word remembering raw data

TECHNOLOGY GENERATIONS

URGENCY

Worldwide...

"It is five to twelve...If we do not act, then clients will not receive the care they need. (V&VN, 2016)

Students who do not work in a care home

4% choose elderly care

100.000 nurses are needed

Studenten liever niet in verpleeghuis
